

Melodie: "Ben" - Michael Jackson

Ben

Ben, we do not have to look for more
We all found what we were looking for
With this cook to call our own
We'll never be alone
And you, dear Ben must trust
You've got a friend in us
(You've got a friend in us)

Ben, you make our meal with all your care
Christmas can't be better anywhere
If we ever look behind
And don't like what we find
There's something we should know
We've got a place to go
(We've got a place to go)

Ben, we love you on this christmasday
We hope that you'll never go away
With this cook to call our own
We'll never be alone
And you, dear Ben must trust
You've got a friend in us
(You've - got - a - friend - in - us)
